Mike,

I don't need samples and I don't have ethanol wipes. I have ethanol, and Kimwipes, but not the two combined☺ Let me know if you'd like them.

Stacy

Also FYI I'm going down there Tuesday morning around 10:00, if you'd like samples just drop off bottles/carboys in my office. If either of you have ethanol wipes on hand I'd also like to include disinfection of the tap in the sampling procedure.

Hi Stacy and Nichole- if/when you have any results from the preliminary tests that you're comfortable sharing externally, would you mind passing them along so I can share with the WaterGen folks? They will be here again next week and are interested how it's going.

Thanks,

Michael
